React / Next.js
Cursor & Claude
Figma

PROFILE

Product design leader with 12+ years shaping digital products across insurance, financial services, media, and hospitality. Has managed designers, mentored 25+ more, and partnered with product and engineering leaders on regulated, high-stakes workflows and 0-to-1 consumer launches. Still builds: designed, built, and submitted a consumer app, Before Us, to the App Store, shipping its production code with AI coding tools, so leads AI-era design work from hands-on practice.

WORK EXPERIENCE

Founder, Product Designer & Builder
Sep 2026 – Present

FEZ Media, Baltimore, MD

- Run an independent product design and technology practice delivering UX strategy, product design, and working prototypes for small businesses and early-stage founders.
- Lead innovation-lab cohorts and workshops that teach founders practical, AI-assisted ways to plan and build products.
- Designed and built **Before Us**, a consumer app, end to end (product strategy, UX, and front-end) and submitted it to the App Store, shipping the production code with AI coding tools like Cursor and Claude.

Product Design Lead
Jan 2024 – Aug 2026

GEICO, Chevy Chase, MD

- Led experience direction for AI-assisted subrogation used by claims adjusters nationwide, defining human-review controls, explainable AI outputs, evidence visibility, and payment breakdowns in a regulated environment.
- Directed design of AI-generated outbound demand responses, projected to cut manual drafting time 30–50%.
- Partnered with engineering and product leadership to set trust, transparency, and review standards for AI-generated content.
- Led UX for digital Injury Intake, using usability research and behavioral data to prioritize friction and redesign guided reporting for injuries, lost wages, and care providers.
- Drove no-fault intake expansion across five states and shaped a read-only claims experience for multiple adjuster groups.

Senior Designer — Sep 2021 – Sep 2023

Publicis Sapient, Atlanta, GA

- Managed a team of 3 designers across financial-services engagements, setting direction, running critique, and growing their craft.
- Led UX for U.S. Bank small-business digital banking concepts, from journeys and interaction models to prototypes validated with 8 participants across 3 customer segments.
- Delivered experience strategy and design for Goldman Sachs, Wells Fargo, and Comcast with product, engineering, and business stakeholders.

Product Design Mentor — Nov 2019 – Apr 2023

Thinkful / Chegg, Remote

- Mentored 25+ emerging product designers in UX process, critique, portfolio storytelling, and interview preparation.

Senior Product Designer, Politics — Dec 2019 – Jan 2021

CNN, Atlanta, GA

- Co-led design and launch of **My Election**, a 0-to-1 personalized election product spanning registration, onboarding, race-following, and dashboard; 148K+ registrations in the 2020 cycle.
- My Election users averaged 13.2 visits during election week vs. 3.0 site-wide, and the product continued into later election cycles.
- Worked with editorial, engineering, and product to make fast-changing election data clear under high-visibility deadlines.

Senior UX Designer — Apr 2018 – Sep 2019

InterContinental Hotels Group (IHG), Atlanta, GA

- Led UX and visual design across 3 IHG brand websites reaching 100M+ visitors, guided by A/B testing, analytics, and customer research.
- Partnered with data science, engineering, and marketing to turn experiments into product changes, contributing to a 25% revenue increase.
- Selected to present UX best practices at General Assembly.

Senior UX/UI Designer — Mar 2017 – Nov 2017

ADP, Atlanta, GA

- Designed desktop and iOS workforce-analytics experiences, simplifying data-rich enterprise workflows for stakeholders and end users.
